(B)

Approved For Release 2009/08/17 : CIA-RDP83-00418R000600130004-3

We have identified and noticed the presence of an 85 [mi]

anti-aircraft defense unit (probably an artillery battalion) in the
new military post located on Szurdok utca, a small street running at an angle from Budoarsi utca and Beregszasz utca in the 11th district of
Budapest.

25X1

A new observation of the whole ~~objective~~ makes it possible to
state positively that there are two different military ~~objectives~~ in
this area:

~~Installation~~
~~Objective~~ "A" (as noted on attached diagram) ^{is} in the north section
and seems to contain housing for the above anti-aircraft unit.

~~Installation~~
~~Objective~~ "B" is in the south area. Various buildings, which could
serve as an observation or signal school, were seen. A red ~~shield~~ with
an anti-aircraft insignia could also be seen. However, in the southeast
corner of the area, two small observation planes of the Piper Cub type
are located permanently, which could mean the presence of an observer or
signal unit or school.

~~Installation~~
The whole ~~objective~~ is bounded by Budaorsi utca and, in a southerly
direction, by a small tarred road for some 100 meters.

Comment:

~~Installation~~
The above ~~objective~~ is completely separated from the barracks at
No 49 Budaorsi utca, as seen from the attached diagram. The latter
~~Installation~~
~~objective~~ has been noted to be probably a communications barracks or
a school for signals non-commissioned officers, and houses both.
